Re: DIRECTV Local Receive Facility (“LRF”) Address Change for Nashville, TN DMA

Dear Ms. Magura:

This letter is to notify you that, as early as June 21, 2021, DIRECTV will move to a new LRF in the Nashville, TN designated market area. The new LRF address is as follows:

**441 Murfreesboro Road
Nashville, TN 37210**

DIRECTV has conducted a survey of your station’s over-the-air (OTA) signal at the new LRF, and the results confirm that the OTA signal does not meet the good quality signal standard specified by the Federal Communications Commission’s Rules, 47 C.F.R. § 76.66(g). Retransmission by DIRECTV of the station’s signal is pursuant to the Must Carry Rules, so DIRECTV has arranged for an alternate means of delivery of your station’s signal to the new LRF through the end of the current election cycle, December 31, 2023.

But, as of January 1, 2024, the station will be responsible, at its sole cost, for delivery of a good quality signal via an alternate means to the new LRF location. Please arrange for signal delivery as of such date in order to maintain continuity of service on DIRECTV.

Technical questions regarding the LRF move or signal delivery to the new LRF can be addressed with our Locals-Technical team at locals-technical@directv.com.

Sincerely,

DIRECTV Locals-Business
